Epic Hardware-by-Department on Dec. 1

This guide shows you the computer hardware, devices and other tools your department will use with Epic on 12/1.

Notices: 1) All patient registration & access areas will have document scanners, e-Signature pads, CC card readers, lable printers and armbands. 2) Greaseboards will not be available on 12/1 due to a supply chain delay —they are expected shortly after and will be deployed as soon as possible upon receipt.

Department	Hardware Summary per Department	Workstations (Laptops, PCs, other workstations (PACS))	Multifunction Printers	Rovers	WOWs	Greaseboards	Docking Stations	24-inch Monitors	Badge Readers	Document Scanners	E-Signature Pads	CC Card Reader	Label Printers	Armband Printers	Barcode Scanners (Tethered or Untethered)	Speech Mic	Downtime PCs	Handhelds
