63.1	Male 69% Female 31%	18.9 hours/7 days

Patient Age Breakdown (years)				
16-18 = <1%	19-44 = 12%	45-64 = 36%	65-74 = 29%	75+ = 23%

More Patients Discharged to Home

A vital part of recovery for patients is the ability to be discharged directly to the comfort of their own home or the familiar surroundings of their Community Based Residential Facility. **89% of our patients achieved their #1 goal of going home compared to 81% of rehab patients in the region and 84% of rehab patients in the nation.**

Quality Care for Medical Problems

Aspirus Wausau Hospital Inpatient Rehabilitation continues to manage and treat our patients medical issues with the assistance of their medical doctors. Because of this teamwork, Aspirus Wausau Hospital Inpatient Rehabilitation has a 5% rate of unplanned transfers back to acute hospital care, compared to the 9% nationally. If you would like additional information, please discuss with your rehabilitation physician.

Patient Satisfaction

- 97.8% of patients surveyed were satisfied with their overall care. *(Source: Medtel Outcomes)*

Commission for Accreditation of Rehab Facilities (CARF), accredited since 1993 and accredited by the Joint Commission
