

Epic Video Visit – Change Default Browser

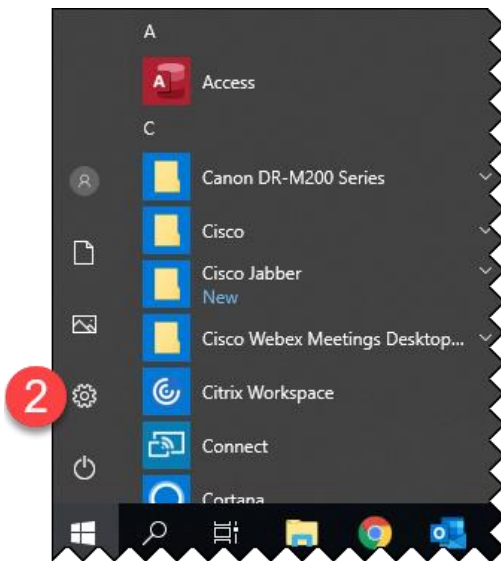

The Epic Video Visit platform recommends **Google Chrome** as the default internet browser for video visits.

Try It Out

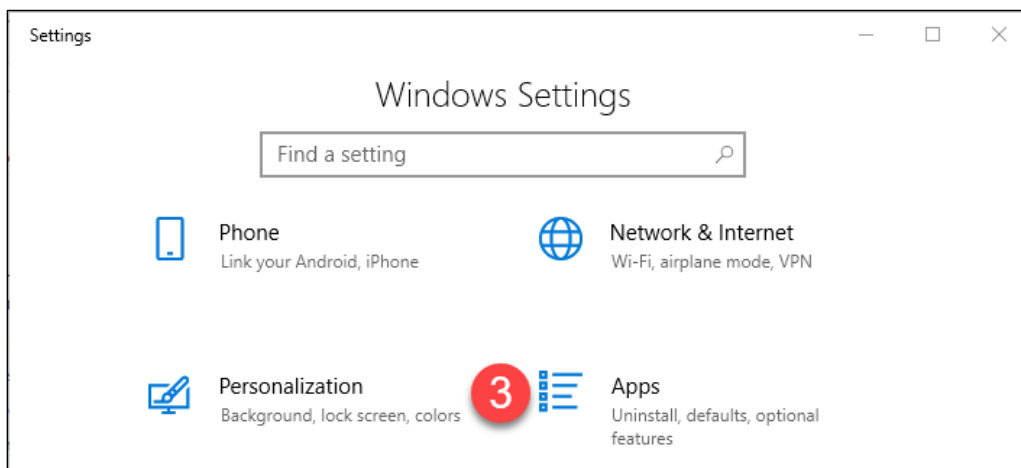

1. From the Windows toolbar, click the **Start Menu**.

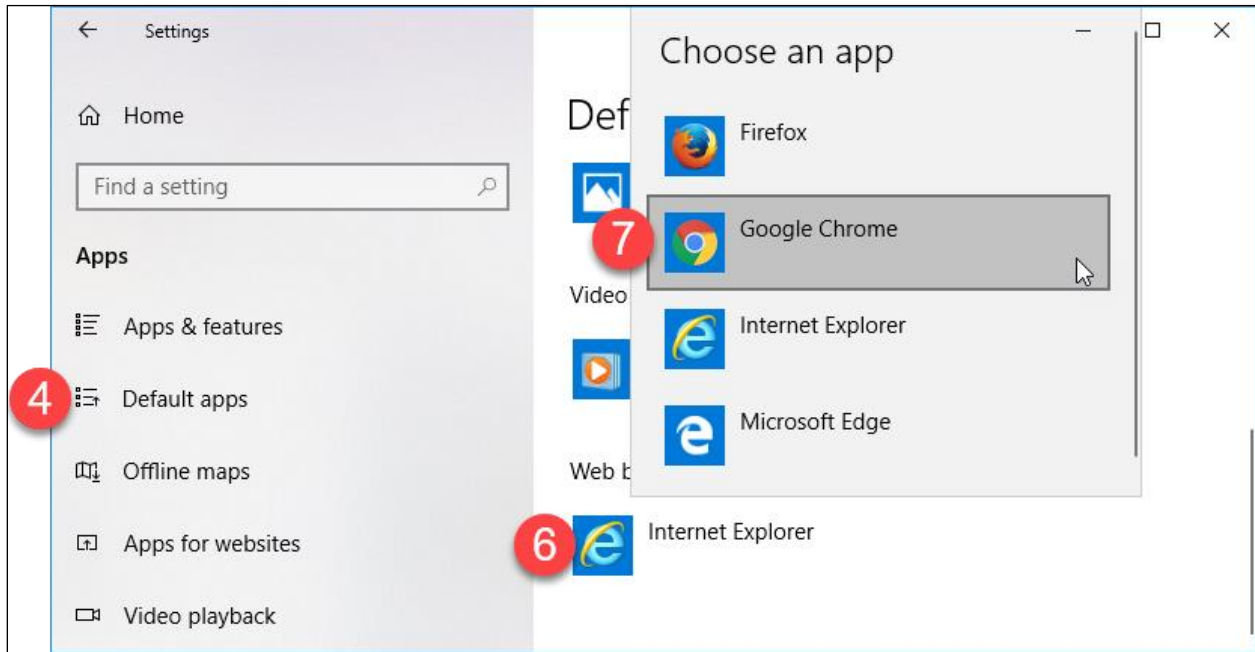

2. Click **Settings**.

3. From Windows Settings, click **Apps**.

4. Click **Default apps**.
5. Scroll down until you find Web Browser.
6. If the web browser is not Google Chrome, click on whatever web browser displays.
7. Click **Google Chrome**.

8. The default internet browser will now be Google Chrome. When launching the Epic Video Visit, it will automatically be launched within Google Chrome.
